ACADEMIC PROJECTS

Student Registration Management System — **2026**
HTML, CSS, Bootstrap, JS, jQuery, PHP, Laravel, MySQL

- Developed student registration features to streamline enrollment workflows, improving student data management and accessibility.
- Designed user-friendly interfaces for student registration and record management, simplifying enrollment processes and administrative tasks.

Inventory Management System — **2025**
HTML, CSS, Bootstrap, PHP, MySQL

- Developed a web-based system to record, update, and monitor stock levels, replacing manual logbook tracking.
- Implemented item, supplier, and transaction modules, allowing users to view real-time inventory status.

SKILLS

- **Problem-solving:** Debugging code, troubleshooting hardware or network issues.
- **Teamwork:** Getting along with others, accepting feedback, and sharing the workload.
- **Adaptability:** Quickly learning new tools, systems, and processes.
- **Critical thinking:** Analyzing a problem before acting.
